Whether you want to make flower fairies, zombie sprites or forest gnomes, there's something in here to get you started! You can even craft a treasure pocket to hide all your creations in. Best of all, you'll learn new sewing skills that you can show off to your pals!

No kidding, this book shows you how to make all kinds of fairies from Angel fairies to Zombie fairies! A fairy for almost anyone! In addition to over 20 different fairies, you can also make over 10 different treasure/wish keepers. I really like this book as the designs are adorable and the directions are clear. The authors start off with a list of supplies that you will need and some basic sewing lessons. Next is a Troubleshooting page to help you figure out what went wrong and how to fix it. In addition, there is a Notes to Parents section which contains some very handy tips on dealing with children and crafting. Each project is labeled with a little flower to tell you if the project is simple or tricky, etc. The book begins with directions on making a basic girl fairy. This basic body will be used to make many different fairies depending on how you style the hair, face, and clothing for each fairy. Lots of really good ideas! The authors offer other body styles for fairies, as well as, a forest gnome. The treasure/wish keepers are great alternative projects. The pages of this book are quite durable and the only thing I would change is to give it a spiral binding to make it lay flat. In fact, I think I will go to Kinkos tomorrow and have one put on! This is a perfect book for parties, play dates, or even rainy days. I highly recommend it!
